Wisconsin Lions Foundation
Vision Screening Results Form

Important: Lions KidSight, the Wisconsin Lions Foundation, and your local Lions Club provide this screening as a community service. While the *Electronic Vision Screener* is a very sophisticated scientific, clinical instrument, it may produce both false positive and false negative results. It is intended to assist in identifying significant ocular conditions, which may lead to amblyopia (Lazy Eye). If the child passes this screening, but the parent or guardian has concerns, or there is an immediate family history of amblyopia or other eye problems, the child should receive a comprehensive eye examination by an eye doctor. This screening is not intended to substitute for a comprehensive eye examination.

Child: _____

Age: _____ Grade: _____ Teacher: _____

Screening Location: _____ Date: _____

☐ **Passed** ☐ **Referred**

Screener Observations: _____

Next steps if the referred box is checked:

1. Make an appointment for your child with an eye doctor.
   a. If you have a private vision insurance plan, please check with your plan to find an eye doctor.
   b. If you have BadgerCare Plus - please contact the BadgerCare Plus recipient hotline at 800-362-3002 for a list of eye doctors covered under your plan.
   c. If you do not have a private vision insurance plan or BadgerCare Plus, the Wisconsin Lions Foundation may be able to assist via a voucher program. If this screening was conducted at a school or daycare, please ask your facility to contact the Lions who conducted the screening to start this process.

Following up after a referral is important. Thank you for prioritizing your child's vision health!
